**“There’s a resounding demand for Cisco devices in as many spaces as possible. Cisco devices have now become so integral in terms of how we work, not only with each other, but also with our clients and how we share inspiration across the studios.”**

Niklas Mortensen  
Managing Director,  
Designit

# Welcome to Cisco devices

In a world with a myriad of technology choices and personal workstyles, how do you collaborate and get stuff done at work? It starts with Cisco devices.

Cisco devices are purpose built to help teams collaborate and create together in real time, no matter how far the distance. From local wireless sharing and high-quality video conferencing to intelligent, connected workspaces, Cisco devices offer rich collaboration experiences to support the needs of your workforce as it evolves.

Based on the RoomOS operating system, Cisco devices deliver the same seamless experience in every space and on every device. It's team collaboration without interruption, just inspiration.

# Designed for beauty, intelligence, and simplicity

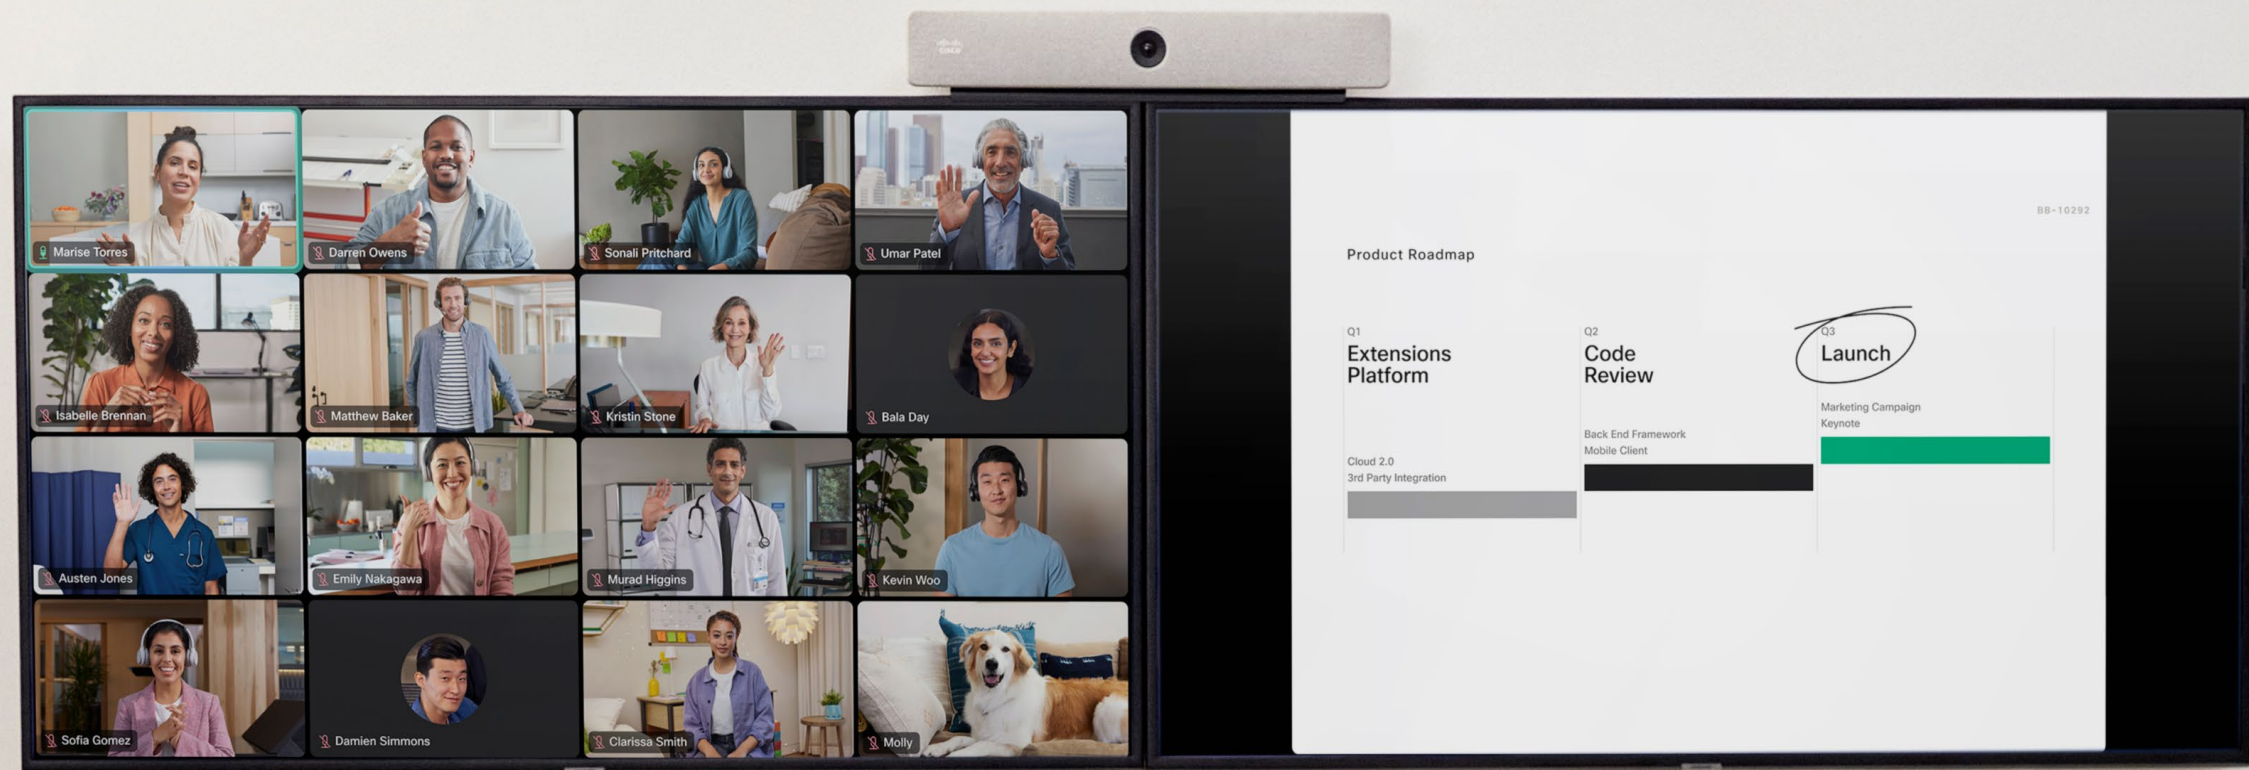

While we take great pride in crafting elegant, award-winning products, our design success reaches beyond aesthetics.

Our goal is to humanize technology, to bring people together, whether across the table or across the globe. By truly understanding our users, we create simple and engaging products that are delightful to install, set up, manage, and use.

When you need this level of ease and excellence combined with exceptional video and crystal-clear sound, you call Cisco.

# It's what's inside that counts

Other companies reference how artificial intelligence (AI) will change the future of collaboration. With Cisco devices, it's already here.

AI-enabled video recognizes meeting participants, gives viewers the relevant context, and automates their tasks and events.

Intelligent experiences completely transform the status quo for virtual meetings. From the desk to the boardroom, our devices are AI-enabled right out of the box.

# On an infinite canvas, your ideas can take shape

Have a great idea? Need to articulate your vision?

Grab the stylus and start collaborating. Cisco video devices enabled with digital whiteboarding and video conferencing are your new best friend.

Draw. Share. Modify.

The whiteboard is infinite and persistent, so you can capture and share your ideas anywhere, anytime.

# Built for every workstyle and workspace

From the home office to conference auditoriums, Cisco devices can accommodate any workspace.

Each component is designed for optimal microphone placement, exceptional audio output, and the best video quality in the market today.

# Join any meeting

Need to switch meeting platforms? No problem.

You can join any Zoom, Microsoft Teams, Google Meet, or Webex meeting with the touch of a button. And with AI features built right into our devices, you can enjoy capabilities like embedded camera intelligence and noise removal in every meeting.

Choose to run RoomOS for a native Webex meeting experience with one button to push video interoperability or configure your devices to run a native Microsoft Teams Rooms experience while maintaining access to full-featured Webex Meetings without reconfiguring the device.

Get the best meeting experience on any platform—only with Cisco devices.

# Make any space your workspace

Turn any desk into your personalized workspace with Cisco Desk Series devices.

Easily sign in by scanning a QR code or plugging in your laptop to reserve a space. Join any meeting with the tap of a button, access your calendar meetings, whiteboards, and make and receive calls on Webex\*.

It's secure, easy to sign in, simple to manage, and provides all the workspace analytics you need.

\*PSTN and extension calling with your business phone number on roadmap Q2 CY2023

# Designed with sustainability in mind

As a part of Cisco's enterprise-wide circular economy program, Cisco devices are built with sustainability in mind.

We're dedicated to designing out waste and extending the life of our products and materials, including incorporating closed-loop materials, optimizing packaging, and making our devices easy to repair and refurbish.

We're constantly innovating to do what's best for the planet and our customers.

# One management tool for a seamless workflow

Whether outfitting one huddle space or redesigning an entire campus, the Control Hub is all you need for device management.

In the cloud? On-premises? Both? No problem.

Ready to provision a new device or remotely wipe one that's been compromised? You got it. Need to deploy signage across hundreds of devices? Absolutely.

Want to monitor workload and productivity analytics in real time? Say no more.

# One powerful platform

No Cisco device? No problem. All you need is internet access to download and use Webex anywhere in the world.

And with multistreaming across multiple screens, you can cast and share work without ever losing eye contact with the team.

Add more custom features like smart calling, messaging, and third-party integrations to create the fully immersive experience your employees have been looking for.

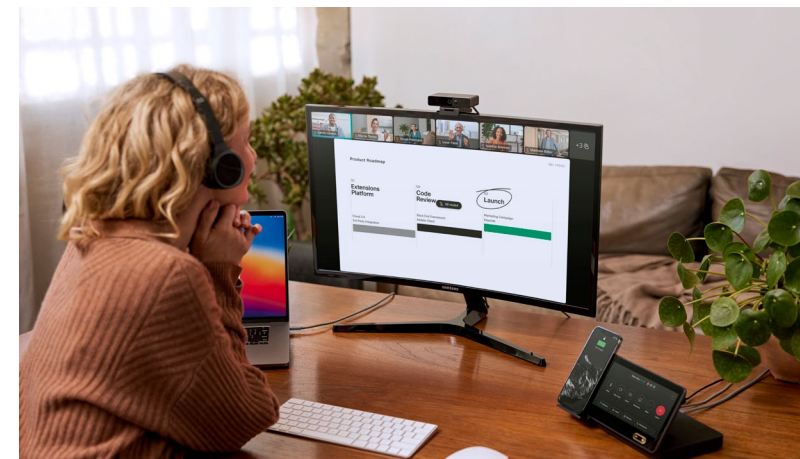

Effortlessly  
move between  
virtual and  
physical spaces

# Cisco Desk Series

Connect your everywhere workforce with intelligent devices designed to make collaboration—on any platform—more engaging, inspired, and productive.

**Cisco Desk Mini**

Designed for small workspaces and portability

**Cisco Desk**

Designed for the home office or office desks

**Cisco Desk Pro**

Designed for the executive office and small shared spaces with up to 2 people

# Cisco Desk Cameras

Meet the webcam that packs stunning video, intelligent views, and impressive features into a small form factor.

**Cisco Desk  
Camera 1080p**

Designed for the home, office,  
and on-the-go workers with  
1080p video quality

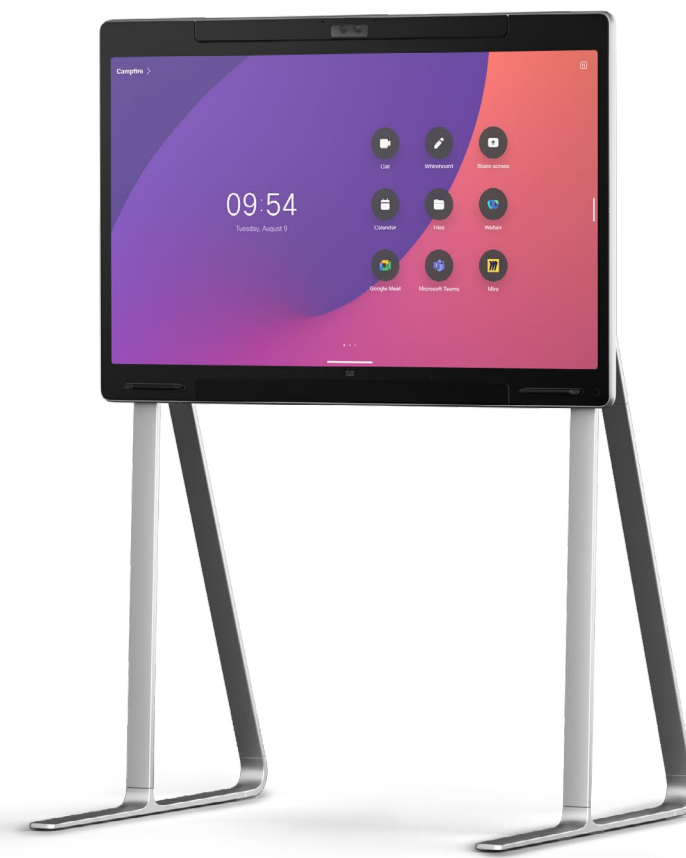

**Cisco Desk  
Camera 4K**

Designed for the home, office, and  
on-the-go workers with intelligent  
features and 4K video quality

# Cisco Board Series

The next-generation, all-in-one room device for hybrid teams with HD video conferencing, wireless content sharing, and multi-touch whiteboarding and annotation.

## Cisco Board Pro 55

Designed for huddle spaces, open office spaces, and small to medium sized rooms

## Cisco Board Pro 75

Designed for open office spaces, small to medium sized rooms, and auditoriums

# Cisco Room Kits

Integrated video bars that provide flexibility, room intelligence, and robust integrations to bring premium-quality video conferencing to small and medium workspaces.

## Cisco Room USB

Designed for bring-your-own-device (BYOD) huddle rooms with up to 5 people

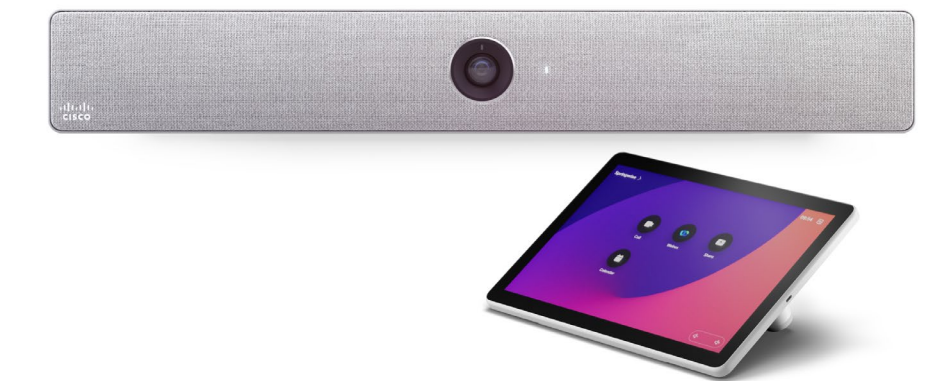

## Cisco Room Kit Mini

Designed for huddle spaces and small meeting rooms for up to 5 people

## Cisco Room Bar

Designed for huddle spaces and small meeting rooms with up to 7 people

## Cisco Room Kit

Designed for medium-sized rooms with up to 10 people

# Cisco Room Kits

Modular video collaboration kits that provide flexibility, speaker-tracking camera options, room intelligence, and robust integrations to bring premium-quality video conferencing to large workspaces.

## Cisco Room Kit EQ

Designed for large rooms with up to 14 people

## Cisco Room Kit Plus

Designed for large rooms with up to 14 people

## Cisco Room Kit Pro

Designed for auditoriums, boardrooms, and very large spaces

# Cisco Room Kits

Modular video collaboration kits that provide flexibility, speaker-tracking camera options, room intelligence, and robust integrations to bring premium-quality video conferencing to large workspaces.

## Cisco Room Kit EQ PTZ 4K

Designed to provide intelligent presenter tracking and pan-tilt-zoom in large meeting rooms

## Cisco Room Kit Plus PTZ 4K

Designed to provide intelligent presenter tracking and pan-tilt-zoom in large meeting rooms

## Cisco Room Kit Pro PTZ 4K

Designed to provide intelligent presenter tracking and pan-tilt-zoom in the largest meeting spaces, conference rooms, and auditoriums

# Cisco Room Series

These powerful all-in-one devices include screens, camera, codec, speakers, and microphones—all with beautiful design, powerful functionality, and flexible mounting options.

**Cisco Room 55**

Designed for small to medium workspaces

**Cisco Room 55 Dual**

Designed for medium-sized workspaces

# Cisco Room Panorama Series

Immersive, multi-screen video collaboration systems powered by full HD panoramic video, spatial audio, 4K presentations, and room intelligence designed for the modern boardroom.

## Cisco Room Panorama

Designed for medium to large boardrooms and conference rooms

## Cisco Room 70 Panorama

Designed for medium to large boardrooms and conference rooms powered by the Cisco Room 70 Dual G2

## Cisco Room 70 Panorama Upgrade

Upgrade bundle designed for medium to large boardrooms and conference rooms with an existing Cisco Room 70 Dual G2

# Room Peripherals

## Room Navigator

Bring intelligent conference controls, room booking, room controls, and third-party workplace experience applications

Cisco Room Navigator
