**Above:** Webex Room Navigator unit used as table-stand room controller

## Transform your workplace with simple and intelligent experiences while eliminating the friction from the employee journey.

The table-stand Webex Room Navigator touch panel is a purpose-built touch controller designed to bring ease and convenience into modern workspaces by providing instant access to conference controls, smart room booking, room controls and your go-to workplace applications.

## Product overview

The table-stand model of Webex Room Navigator is a 10-inch touch display that allows you to intuitively control your Webex collaboration devices, check workspace availability and book a meeting room, control room peripherals, and run third-party applications for wayfinding, space reservation, digital signage and other workspace experience workflows.

This touch-based unit was designed to create uninterrupted workflows and help maximize the utilization of your collaboration spaces while delivering these experiences in a way that is scalable, secure and easy to manage.

Webex Room Navigator for table is a versatile device that combines controls, an intuitive display and sensors into an elegant touch panel. It can be either configured as a room control device or a room booking unit within meeting rooms.

Room Navigator is a touch panel that facilitates intuitive access to multiple systems in interior spaces while the integrated sensors of the control unit provide control and optimization of the environment. It enhances the ease of connection by providing instant access to meeting, contacts, directories, and content. The device can be used to control conference systems, move partitions, curtains and other room peripherals, access third-party workspace applications and provide room booking capabilities.

The control display with its calm appearance and aesthetics showcases clean surfaces and fine details for a friendly, approachable look. It supports two positions on the table with different viewing angles, including a 180-degree rotation of the user interface when the device is tilted. The device adapts smoothly from small to large conference spaces and huddle rooms while equipped with a detachable foot stand to enable easy disassembly, securely lock the cable and avoid connector strain.

You only need a single Ethernet cable to power the device and access the network. Webex Room Navigator can be connected directly to a Webex video device or remotely paired to it when plugged on a PoE network.

## Features and benefits

Webex Room Navigator offers room intelligence in a box, bringing efficiency, usability and aesthetics to your workspaces. Recognized in the Red Dot Design Awards, this room panel delivers smooth integration with collaboration endpoints and third-party applications, unmatched room intelligence, and UI consistency in a cost-effective, scalable and simple way.

It unlocks the best combination of user centric design, purpose-built hardware, native software and an open approach to integration out of the box to help you transform your physical workspaces.

Webex Room Navigator is a competitive, feature-rich and highly flexible solution that can be used either as a room and conference control panel or a dedicated scheduling display, has a robust device management platform, and offers rich sensor data that supports creating a safer and optimized workspace environment. It can be configured to run third-party applications to help you protect your existing workspace management and room booking investments. With the Room Navigator, you can experience frictionless meetings, effortless space reservation, and streamlined room and device integrations.

With the Webex approach to room controls and space reservation, you can significantly simplify your deployment, lower total cost of ownership and ease management efforts by leveraging a single vendor to provide platform agnostic video collaboration devices, the underlying meeting service, the room control hardware, and the associated room booking software solution.

**Table 1.** Features and benefits

FEATURE	BENEFIT
<p><b>Room controls</b></p>	<ul style="list-style-type: none"> <li>• Brings intelligent room controls to Webex Room Series and Webex Board Series-enabled workspaces</li> <li>• Optimized for an effortless user experience, the table version of the user interface can rotate 180 degrees when the device is tilted, allowing for two different viewing angles</li> <li>• Optimized for an effortless user experience – from launching a video or audio conference with one button to push, controlling the camera, and changing video layout, to sharing content, viewing contact lists and directories, and apply other in-call actions</li> <li>• The user interface can be configured by administrators to easily control other room peripherals such as lighting, blinds, room dividers, and curtains</li> <li>• Macros offer smart customizations to extend the features and functionality available in Room Navigator, such as controlling light, blinds and room amenities or configuring “ghost meeting” release when no one shows up in a meeting</li> </ul>

FEATURE	BENEFIT
<p><b>Room booking</b></p>	<ul style="list-style-type: none"> <li>• The table-stand controller can be configured for lightweight room booking capabilities, blending space reservation with the core conference and room control functionality</li> <li>• Enables calendar display, ad-hoc room booking, meeting extensions, meeting end reminders, non-booked room reminders and check-outs with a few taps on the touch screen</li> <li>• Offers Webex hybrid calendar synchronization</li> <li>• Beyond the native Webex room booking solution, Navigator can run third-party, persistent web apps for room booking from best-of-breed space reservation and workspace experience solution providers</li> <li>• Webex native room booking is license-free when paired with a Webex room device</li> </ul>
<p><b>Workspace intelligence</b></p>	<ul style="list-style-type: none"> <li>• Room Navigator comes with embedded environmental sensors to track temperature, humidity, and air quality in the room</li> <li>• Allows facility managers to get a real-time health-check on their workspaces</li> <li>• Sensors monitor comfort and supplies you with actionable insights through Control Hub via APIs, so you can make interventions to improve employee wellbeing</li> <li>• Sensor data, alongside room occupancy and user behavior metrics, can be ingested to third-party analytics dashboards for workspace optimization and resource planning purposes</li> </ul>
<p><b>Third-party web applications</b></p>	<ul style="list-style-type: none"> <li>• Third-party mode: Room Navigator supports running persistent web applications to enable third-party experiences from Appspace, UMA, and other ecosystem partners</li> <li>• Web apps running on Navigator get access to specific RoomOS APIs to build custom integrations for room booking, wayfinding, space reservation and digital signage</li> </ul>
<p><b>Easy setup and management</b></p>	<ul style="list-style-type: none"> <li>• Room Navigator can be configured either as a room controller, a room booking device or in persistent web app mode - users can select from default options when it is booted for the first time or can configure the device for the desired use case anytime</li> <li>• Webex Room Navigator can be connected directly to a Webex video device or remotely paired to it when plugged on a PoE network</li> </ul>

# Product specifications

Table 2. Product specifications

SPECIFICATION	DESCRIPTION
<b>Product compatibility</b>	Webex Room Kit Series, Webex Room Series, Webex Room Panorama Series, Webex Board Series (Board S Series and Board Pro Series)
<b>Software compatibility</b>	CE9.14.3 or later, or Webex Cloud
<b>Call-control compatibility</b>	<ul style="list-style-type: none"> <li>• Hosted: Controlled by codec, Cisco Unified Communications Manager 10.5.2 or newer, Webex Cloud</li> <li>• Cloud: Webex Cloud</li> </ul>
<b>Native Webex room booking</b>	<ul style="list-style-type: none"> <li>• Integrates with O365, Exchange and Google Calendar through Webex Hybrid Calendar service (requires Webex activation)</li> <li>• Ad-hoc space reservation with a few taps</li> <li>• View all upcoming meetings from room calendar</li> <li>• Extend your meetings</li> <li>• Touchless booking inside the room with Webex Assistant</li> <li>• Meeting reminders with single tap extension</li> </ul>
<b>Third-party web applications</b>	<ul style="list-style-type: none"> <li>• Supports the usage of persistent web apps enabling third-party experiences</li> <li>• Web apps running on Navigator get access to the meeting room sensors' data and the Webex hybrid calendar to enhance custom integrations for wayfinding, room booking, and digital signage</li> </ul>
<b>Default components</b>	<ul style="list-style-type: none"> <li>• Room Navigator touch panel</li> <li>• Table stand</li> <li>• Ethernet cable (flat, 8m/26.2ft)</li> </ul>
<b>Signaling protocols</b>	TCP/IP
<b>Display</b>	<ul style="list-style-type: none"> <li>• Capacitive touch LCD</li> <li>• 10.1-inch diagonal</li> <li>• Anti-glare and anti-fingerprint</li> </ul>
<b>Resolution</b>	1920 x 1200

SPECIFICATION	DESCRIPTION
<b>Memory</b>	2GB
<b>Sensors</b>	<ul style="list-style-type: none"> <li>Measures temperature, humidity, and air quality (TVOC). This is combined with general noise, ambient noise, and reverberation time (RT60) for room acoustics originating from built-in sensors in the Webex video endpoints</li> <li>Sensor values are accessible from Webex Room APIs, displayed on the Control Hub dashboard and can be extracted to third-party analytics and workspace management tools</li> </ul>
<b>Language support</b>	English, Arabic, Catalan, Czech, Danish, Dutch, Finnish, French, German, Hebrew, Hungarian, Italian, Japanese, Korean, Norwegian, Polish, Portuguese-Brazilian, Russian, Simplified Chinese, Spanish, Swedish, Traditional Chinese, and Turkish; (depends on software version)
<b>Digital signage</b>	Configurable in Control Hub
<b>Physical dimensions (H x L x D)</b>	<ul style="list-style-type: none"> <li>2.8 x 9.53 x 6.42 in. (7.1 x 24.2 x 16.3 cm)</li> <li>Maximum height in vertical position 5.2 in (13.2 cm)</li> <li>Minimal height in lower position on the table: 3.85 in (9.77 cm)</li> <li>For more information, please consult the <a href="#">Webex Room Navigator CAD drawings</a></li> </ul>  <p>The image contains five CAD drawings of the Webex Room Navigator.          1. Top view: Shows a rectangular device with a width dimension of 171 mm (6.732 in) and a depth dimension of 91.5 mm (3.598 in).          2. Side view (top): Shows the device tilted upwards with a height dimension of 131.1 mm (5.161 in).          3. Side view (bottom): Shows the device tilted downwards with a height dimension of 96.4 mm (3.795 in).          4. Side view (left): Shows the device in a vertical position with a height dimension of 163.1 mm (6.420 in) and a width dimension of 242.2 mm (9.534 in).          5. Side view (right): Shows the device in a vertical position with a height dimension of 71.2 mm (2.803 in).          6. Perspective view: Shows the device from an isometric angle.</p>
<b>Weight</b>	1.39lb (0.63kg)
<b>Power</b>	<ul style="list-style-type: none"> <li>Power over Ethernet (PoE)</li> <li>100-240VAC, 0.5A max, 50/60Hz</li> </ul>

SPECIFICATION	DESCRIPTION
<b>Interfaces</b>	<ul style="list-style-type: none"> <li>• 1x Ethernet (RJ-45) 100/1000 Mbps for LAN (external network) or direct pairing</li> <li>• 1x microUSB (service port)</li> <li>• 1x factory reset pinhole</li> </ul>
<b>Security</b>	<ul style="list-style-type: none"> <li>• Secure management using HTTPS and SSH protocols</li> <li>• Password protection for IP administration</li> <li>• Standards-based media encryption on all back-ends (Secure Real-time Transport Protocol [SRTP], using AES-128-GCM or AES-256-GCM)</li> <li>• Password protection to access administration</li> <li>• Option to disable IP services</li> <li>• Network settings protection</li> <li>• Support for 802.1x authentication protocol (either when the device is paired directly or remotely with the video endpoint)</li> </ul>
<b>Registration</b>	Room Navigator must be registered directly to a Webex device
<b>Administration</b>	<ul style="list-style-type: none"> <li>• Centralized room and device management</li> <li>• Workspace insights on a per workspace level and single dashboard for all workspaces</li> <li>• Simple onboarding - PIN-based pairing with room device</li> </ul>
<b>Operating temperature and humidity</b>	<ul style="list-style-type: none"> <li>• 0°C to 40°C (32°F to 104°F) ambient temperature</li> <li>• 10% to 90% Relative Humidity (RH)</li> </ul>
<b>Storage and transport temperature</b>	-20°C to 60° (-4° to 140°F) at RH 10% to 90% (noncondensing)
<b>Regulatory compliance and standards</b>	<ul style="list-style-type: none"> <li>• Directive 2014/30/EU (EMC Directive) and Directive 2014/35/EU (Low-Voltage Directive)</li> <li>• Directive 2011/65/EU (RoHS)</li> <li>• Directive 2002/96/EU (WEEE)</li> <li>• NRTL approved (product safety)</li> <li>• EMC: EN 55032 - Class A, EN 55024</li> <li>• Safety: EN 60950-1, EN 62479</li> <li>• FCC CFR 47 Part 15B (EMC) - Class A</li> </ul>

The list above reflects the regulations applicable at the time of publishing this document. For an updated list of regulations applicable, see the [Product Approval Status Database](#) for approval documents per country.

## Warranty information

Warranty information is available on Cisco.com at the [Product Warranties](#) page.

## Ordering information

Webex Room Navigator devices are available as a part of an endpoint order and also as standalone units.

To place an order, visit the [Cisco Ordering Home Page and refer to Table 2](#). To download software, visit the [Cisco Software Center](#).

See individual endpoint data sheets for whether Room Navigator comes standard with product.

**Table 2.** Ordering information

PRODUCT NAME	PART NUMBER	COMPLIANCE MODEL NUMBER
Webex Room Navigator (table-stand version)	CS-T10-TS-K9=	TTC5-15
Foot stand spare	CS-T10-TS-FT=	

Note: Many of the products and features described herein remain in varying stages of development and will be offered on a when-and-if-available basis. This roadmap is subject to change at the sole discretion of Cisco, and Cisco will have no liability for delay in the delivery or failure to deliver any of the products or features set forth in this document.

## Cisco environmental sustainability

Information about Cisco’s environmental sustainability policies and initiatives for our products, solutions, operations, and extended operations or supply chain is provided in the “Environment Sustainability” section of Cisco’s [Corporate Social Responsibility](#) (CSR) Report.

Reference links to information about key environmental sustainability topics (mentioned in the “Environment Sustainability” section of the CSR Report) are provided in the following table.

**Table 4.** Environmental sustainability reference links

SUSTAINABILITY TOPIC	REFERENCE
Information on product material content laws and regulations	<a href="#">Materials</a>
Information on electronic waste laws and regulations, including products, batteries, and packaging	<a href="#">WEEE compliance</a>

Cisco makes the packaging data available for informational purposes only. It may not reflect the most current legal developments, and Cisco does not represent, warrant, or guarantee that it is complete, accurate, or up to date. This information is subject to change without notice.

## Cisco Services

Cisco and our partners provide a broad portfolio of smart, personalized services and support that can help you realize the full business value of your Cisco Webex Device investment by increasing business agility and network availability. This portfolio of services accelerates business innovation by harnessing the network as a powerful business platform. For more information about these services, visit: <https://www.cisco.com/go/collaborationservices>.

## Cisco Capital

Flexible payment solutions to help you achieve your objectives

Cisco Capital makes it easier to get the right technology to achieve your objectives, enable business transformation and help you stay competitive. We can help you reduce the total cost of ownership, conserve capital, and accelerate growth. In more than 100 countries, our flexible payment solutions can help you acquire hardware, software, services and complementary third-party equipment in easy, predictable payments. [Learn more](#).
